### **NATIONAL POLICY ON PREVENTION & MANAGEMENT OF ABORTION COMPLICATIONS**

The Department of Health (DOH) issued Administrative Order No. 2016-0041 entitled "National Policy on the Prevention and Management of Abortion Complications (PMAC)" last November 25, 2016.

According to the AO, there are an estimated 610,000 unsafe abortions, over 100,000 hospitalizations and 1000 deaths of women due to abortion-related complications each year. The national policy was issued to address the harmful impact of unsafe abortions and contribute to the reduction in maternal mortality.

The PMAC includes comprehensive preventive and medical health care services on the following six elements: (a) prevention of threatened abortion; (b) treatment of complications from spontaneous and induced abortion; (c) counseling; (d) family planning including contraceptive services; (e) linking PMAC services to other Reproductive Health Services including STI evaluation and treatment and HIV counseling and testing and cancer screening; and (f) integration of PMAC in the Service Delivery Network.

Also, among its general guidelines include the statement that women and girls suffering abortion complications are entitled to humane, nonjudgmental and compassionate post-abortion care, hence, no woman or girl shall be denied appropriate care and information on the ground that she is suspected to have an induced abortion.
